

## Product: *IngraMultipla II*

**Description/Application:** *IngraMultipla II* is a multipurpose lytic grease for general lubrication under normal operating conditions and loads, formulated for lubrication of all kinds of universal applications in transport, agriculture and off road equipment, operating in wet, dusty and/or dry conditions. Its structural stability is achieved by an optimized combination of mineral oil, lithium thickener and especially selected additives as anti-wear, anti -oxidant and corrosion inhibitor additives, making it extremely multifunctional.

This grease can be applied in all kinds of bearings and joints when the temperature and loading conditions are normal. It is suitable for passenger cars and light trucks.

**Recommendation:** Always avoid contamination of the grease by dust and/or dirt when applying.

## Advantages:

- Excellent mechanical stability avoiding ejection or loss of consistency during operation
- Excellent anti-wear properties that provide extended protection for equipments subject to heavy loads, resulting in the equipment life extension.
- High water resistance; even in a moist environment a sufficient lubricating film will be maintained on the surface of the piece.
- *IngraMultipla II* does not contain lead, or other heavy metals considered harmful to human health and the environment.

## Typical Characteristics:

Designation	Method	Units	<i>IngraMultipla II</i>
Soap/Thickener	-	-	Lithium
Base oil	-	-	Mineral
Appearance	Visual	-	Smooth
Color	Visual	-	White/Amber
NLGI Grade	ASTM D217	-	2
Worked Penetration 60 Strokes	ASTM D217	0,1mm	280
Operating temperature range	-	°C	-30 to 120
Kinematic viscosity of the base oil at 40°C	ASTM D445	cSt.	120
Dropping Point	ASTM D2265	°C	200

**Note:** Also available in others NLGI grades (000, 00, 0 and 3)

## Product Performance Claims: DIN- 51825 KP-2K

**Storage:** Store the product in an appropriate place, which must be fresh and dry.

**Hygiene and Security:** Avoid skin contact. Use gloves when handling used oil. After contact with the skin is advisable to wash with soap and water. For more information consult the product Safety Data Sheet.

**Environment:** Take the used oil to an authorized collection point. Do not dump the oil into the sewage, ground or watercourses. For more information contact a certified company for collecting oils in your country.
